<b>Washington County</b>	)	<b>Findings of Fact and Order</b>
<b>Baileyville Maine</b>	)	<b>Part 70 Air Emission License</b>
<b>A-215-70-B-A</b>	)	<b>Administrative Revision</b>

After review of the Part 70 License Administrative Revision application, staff investigation reports and other documents in the applicant's file in the Bureau of Air Quality, pursuant to 38 M.R.S.A, Section 344 and Section 590, the Department finds the following facts:

## **I. Registration**

### **A. Introduction**

FACILITY	Domtar Industries Inc., Woodland Mill
LICENSE NUMBER	A-215-70-A-I
LICENSE TYPE	Administrative Revision
NAICS CODES	32211, 32212
NATURE OF BUSINESS	Pulp and Paper
FACILITY LOCATION	Baileyville, Maine
DATE OF LICENSE ISSUANCE	December 22, 2004
LICENSE EXPIRATION DATE	December 22, 2009

### **B. Description of Revision**

Domtar Industries Inc. (Domtar) has applied to correct some items that were incorrectly reported in Domtar's Initial Part 70 License. The following items shall be corrected:

1. Periodic Monitors for the Bleach Plant – Special Condition 33(B)(2)
2. The first semi-annual reporting date – Special Condition 38
3. The first annual compliance reporting date – Special Condition 39

C. Justification

Special Condition 33(B)(2) indicates that Domtar shall monitor the Bleach Plant Scrubber pressure drop. A letter dated February 23, 2001, requesting alternative monitoring from Subpart S was sent to, and approved by, the EPA in a letter dated March 14<sup>th</sup>, 2001. The monitoring agreed upon is outlined in Special Condition 33(B)(1), 33(B)(3) and 33(B)(4). In addition to meeting the requirements of Subpart S, the monitoring outlined in these letters also satisfies the requirements of MEDEP Chapter 122. Thus, Special Condition 33(B)(2) is no longer required in Domtar's Initial Part 70 License and shall be removed.

Special Conditions 38 and 39 currently read as follows:

(38) Semiannual Reporting

The licensee shall submit semiannual reports every six months to the Bureau of Air Quality. The semiannual reports are due on July 31<sup>st</sup> and Jan 31<sup>st</sup> of each year with the initial semiannual report due **January 31, 2005**.

- A. Each semiannual report shall include a summary of the periodic monitoring required by this license.
- B. All instances of deviations from license requirements and the corrective action taken must be clearly identified and provided to the Department in summary form for each six-month interval.

[MEDEP Chapter 140]

(39) Annual Compliance Certification

Domtar shall submit an annual compliance certification to the Department in accordance with Standard Condition (13) of this license. The annual compliance certification is due January 31 of each year with the initial annual certification due **Jan 31, 2005**. Certification of compliance is to be based on the stack testing or monitoring data required by this license. Where the license does not require such data, or the license requires such data upon request of the Department and the Department has not requested the testing or monitoring, compliance may be certified based upon other reasonably available information such as the design of the equipment or applicable emission factors. [MEDEP Chapter 140]

The initial reporting dates were erroneously listed in Domtar's Initial Part 70 License. Therefore the language of these Special Conditions shall be corrected to the following:

(38) Semiannual Reporting

The licensee shall submit semiannual reports every six months to the Bureau of Air Quality. The semiannual reports are due on July 31<sup>st</sup> and Jan 31<sup>st</sup> of each year with the initial semiannual report due **July 31, 2005**.

- A. Each semiannual report shall include a summary of the periodic monitoring required by this license.
- B. All instances of deviations from license requirements and the corrective action taken must be clearly identified and provided to the Department in summary form for each six-month interval.

[MEDEP Chapter 140]

(39) Annual Compliance Certification

Domtar shall submit an annual compliance certification to the Department in accordance with Standard Condition (13) of this license. The annual compliance certification is due January 31 of each year with the initial annual certification due **Jan 31, 2006**. Certification of compliance is to be based on the stack testing or monitoring data required by this license. Where the license does not require such data, or the license requires such data upon request of the Department and the Department has not requested the testing or monitoring, compliance may be certified based upon other reasonably available information such as the design of the equipment or applicable emission factors. [MEDEP Chapter 140]

D. Application Classification

The application for Domtar does not violate any applicable federal or state requirements and does not increase the source's potential to emit by significant emissions. Therefore, the license amendment is considered to be an Administrative Revision of a Part 70 source issued under Section 7 of Chapter 140 of the Department's regulations for a Part 70 source.

## ORDER

The Department hereby grants Part 70 Administrative Revision A-215-70-B-A, subject to the conditions found in Part 70 License A-215-70-A-I, and in the following conditions:

The following shall replace Special Conditions 33(B), 38 and 39:

(33) Periodic Monitors [MEDEP Chapters 140]

B. Bleach Plant Monitors [MEDEP Chapter 122, 40 CFR, Part 63, Subpart S]

The following periodic monitoring shall be recorded as specified by the applicable Special Conditions of this License, for the Bleach Plant. The Bleach plant monitors must record accurate and reliable data. If the periodic monitor allows the recording of accurate and reliable data less than 90% of the source operating time within any quarter of the calendar year, the Department may initiate enforcement action and may include in that enforcement action any period of time that the parameter monitor was not recording accurate and reliable data during that quarter unless the licensee can demonstrate to the satisfaction of the Department that the failure of the system to record accurate and reliable data was due to the performance of established quality assurance and quality control procedures or unavoidable malfunctions.

1. Scrubber recycle flow for the Bleach Plant Scrubber
2. Scrubber ORP or pH for the Bleach Plant Scrubber
3. Scrubber Fan on/off setting for the Bleach Plant Scrubber

(38) Semiannual Reporting

The licensee shall submit semiannual reports every six months to the Bureau of Air Quality. The semiannual reports are due on July 31<sup>st</sup> and Jan 31<sup>st</sup> of each year with the initial semiannual report due **July 31, 2005**.

- A. Each semiannual report shall include a summary of the periodic monitoring required by this license.
- B. All instances of deviations from license requirements and the corrective action taken must be clearly identified and provided to the Department in summary form for each six-month interval.

<b>A-215-70-B-A</b>	<b>5</b>	<b>Administrative Revision</b>

(39) Annual Compliance Certification

Domtar shall submit an annual compliance certification to the Department in accordance with Standard Condition (13) of this license. The annual compliance certification is due January 31 of each year with the initial annual certification due **Jan 31, 2006**. Certification of compliance is to be based on the stack testing or monitoring data required by this license. Where the license does not require such data, or the license requires such data upon request of the Department and the Department has not requested the testing or monitoring, compliance may be certified based upon other reasonably available information such as the design of the equipment or applicable emission factors.
